TITLE : DELIVERING GOODS KEEPING  
SYSTEM

ABSTRACT : PURPOSE: To deliver goods even when a receiving person is absent by receiving the delivering goods in a locker which can be unlocked with a magnetic card, etc., locking the locker and on the other hand, for the receiving person, unlocking the locker with the magnetic card, etc.

CONSTITUTION: By executing a prescribed operation with a magnetic card or a ten-key by a delivery in a main and by receiving delivering goods in the locker and locking it, a receipt is issued by a printer 33. Thus, the delivery of the delivering goods to an absent resident can be executed without fail and by receiving the receipt, the delivery can be proved. For the resident, by inputting a personal code number with the magnetic card or the ten-key in the main controller 3, since the unlocking of the locker in which the delivering goods are received can be executed, the resident can receive the delivering goods.
